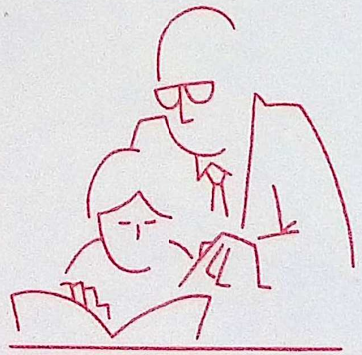
- Goal Setting/Careers
- Transition

Additional programs are CONFLICT MANAGEMENT, TUTORING and a MENTORING PROGRAM.

The counselors also work on an individual basis or with small groups of student/s referred to them.



NORTH SCOTT JR. HIGH SCHOOL

PLUS PROGRAM
At North Scott Junior High School, the PLUS (Positive Learning through Understanding and Support) Program is designed to meet the needs of all students. The program emphasizes academic success, drop-out prevention and a drug-free environment.

PEER AND PARENT TUTORING
One of the major components of the PLUS Program is tutoring. Tutors involve parents as well as students. Tutoring is designed to meet the needs of those students who need academic assistance in order to maintain or attain success in school, or those students who would benefit more from working in a one-on-one situation.

CONFLICT MANAGEMENT
The other major component of the PLUS Program is Conflict Management. This program encourages students to learn to settle disputes through communication and cooperation, rather than the negative alternative.
